

**REMARKS**

The undersigned appreciates the courtesy of the Examiner in discussing the status of the application and the manner for submitting and entering the present Amendment.

The present amendments are made in order to reference the locations of the Specification correctly by paragraph number which were to be amended by Applicant's Amendment filed July 5, 2005. Other than the corrections herein to the locations, the amendments to the Specification are the same as those submitted on July 5, 2005. Accordingly, Applicant submits that this Amendment is enterable at this time.

As indicated in the remarks to Applicant's July 5, 2005 Amendment, the specification is amended to add reference signs to features which appear in the original Figures and are supported by the original drawings and specification but were not specifically referenced before. No new matter is contained in the present amendments.

If for any reason the Examiner does not believe that such action can be taken at this time, the Examiner is requested to telephone the Applicants' attorney at the number indicated below to discuss any issues that may remain.
